YOUR GUIDE TO MYCiTi

MyCiTi is Cape Town’s safe, reliable, convenient bus system. Buses operate up to 18 hours a day. You need a myconnect card, but the system is easy to use once you know how.

1 Get your myconnect card

Everyone needs their own myconnect card to travel. Buy yours for R35 from MyCiTi station kiosks and some shops.

2 Load money on your card for travel

Load any amount as Standard, or save with Moveo and discounted travel packages.

3 Tap in and Tap out

Start your trip: Tap in by holding your card against the validator as you enter a station or board a bus at a stop.

End your trip: Tap out by holding your card against the validator as you leave a station or exit a bus at a stop.

4 Fares – how much will my journey cost?

You pay for the distance you travel, which is calculated from where you tap in to where you tap out.

Plan your journey and save

You pay more in the Peak fare period (weekdays 06:45-08:00 and 16:15-17:30), and less at all other times including weekends and public holidays (the Saver fare period). You are charged Peak or Saver fares depending on when you start your trip.

Changing buses

Change from one route to another, and only pay one fare. Tap out at a station or on a bus and tap in again within 5 minutes to continue your journey. To change buses inside a station, make your way from one bus to another without tapping.

For prices and more information about these packages including travel to and from the Airport, see www.myciti.org.za
