

MYCITI CONSTRUCTION

WORK KICKS OFF IN CLAREMONT FOR FUTURE BUS SERVICES

Residents are advised of an extensive upgrade to Imam Haron, Chichester and Stanhope Roads from March 2025, in preparation for the City of Cape Town's modern MyCiTi bus service. We realise the inconvenience involved and thank the public in advance for their patience and understanding.

The roadworks will regrettably add to delays and disruptions in the area for the next three years, but is vital to meet Cape Town's future transport needs and help revitalise the surrounding area. Phase 2A of MyCiTi is key to the City's vision to improve the transport experience for residents well into the

future. A network of rapid bus services will link Mitchells Plain and Khayelitsha with Claremont and Wynberg along dedicated bus lanes, enabling rapid, regular services and reduced travel times. For residents and businesses, this also means revitalising the surrounds to entice investment.

Work will involve reconstruction of roads with dedicated bus lanes, stops and stations, upgrading intersections with traffic signals, safer walking and cycling features and landscaping. The significant investment is also creating short-term job and business opportunities for locals in each area to assist with construction and by reducing congestion and vehicle emissions, MyCiTi will help contribute to a greener, more sustainable Cape Town.

An artist impression showing future MyCiTi services and an improved road network for all.

Motorists advised to expect delays and plan ahead

Roadworks are planned until the end of 2027 and motorists are urged to prepare for longer journey times and to consider ride-sharing, lift clubs, public transport or avoiding peak travel times if possible. The City realises the impact of this work on residents and road users

and will implement the following measures to help limit disruptions:

- Disruptive work is only planned on weekdays from 09:00 until 15:00
- At least one lane of traffic will stay open in each direction throughout
- Temporary detours and walkways will ensure pedestrian access and

access to residential properties and business premises at all times

- Signage and traffic personnel will help keep traffic flowing and road users safe

Thank you for your understanding as we invest in our road network for current and future users.

FIND OUT MORE

Come to a public information day for more information, large detailed maps and an opportunity to speak directly with our officials.

Date: Tuesday 18 February 2025

Venue: Claremont Civic Centre, corner of Wilderness and Bath Roads, Claremont

Time: 17:00 to 18:30
